

WOW : World of Windows was established in the year 2011 , to provide world-class fenestration solutions to its esteemed clients . At WOW, we strongly believe that windows & doors are meant not just to fit an opening in the wall, but to offer a combination of enhanced performance & beautiful aesthetics.

WOW Windows & Doors are made from premium quality UPVC , a universally accepted material in the construction industry for more than 40 years. All systems are especially designed for the Indian tropical climate and conform to British standards BS EN12608.

At WOW, we offer you an end-to-end solution from designing till installation. Be it your dream home or a large scale residential project, a hospital or a hotel , an educational institution or a renovation work , our team will offer you 100% customized solutions to suit your needs.

WOW PRODUCT RANGE

FOLD & SLIDE DOORS

This new-generation door, designed for large openings, joins multiple sashes in a unique slide and fold mechanism. The sashes move in either direction (left or right) and can be stacked at either end providing 100% opening.

TILT & TURN WINDOWS & DOORS

Tilt and turn Windows & Doors feature a sash that can tilt open for ventilation or turn inwards for easy cleaning. A single sash can be 4' in width and 8' in height with 36 mm glazing.

VERTICAL SLIDER

Vertical Sliders are perfect for narrow and tall apertures and can provide upto 50% opening.

SLIDING WINDOWS & DOORS

The sliding Windows & Doors can be designed in one, two and three track systems with fly screen option and opening area varying from 33% to 75%. Security grill can also be integrated within the system.

LIFT & SLIDE DOORS

Lift and slide doors are designed for larger openings with unobstructed views. A single sash can be 9' in width and 10' in height and can weigh upto 300 kgs with 36 mm glazing. It gives 50% clear opening with heavy duty tandem rollers for smooth operations.

TWIN SASH WINDOWS & DOORS

Twin Sash windows & doors are designed to provide ultimate flexibility to customers with the option to combine fly screen, glass, security grill and louvers all in a single system.

HEAVY DUTY PATIO DOORS

The HD Patio system is designed to meet the demand of more glass area with less vertical divisions. A 2-pane version can be 19' wide and 10' high. A single sash can weigh upto 300 kgs with 36 mm glazing.

CASEMENT WINDOWS & DOORS

Casement windows and doors open in or out with maximum design flexibility with minimum sections. This system offer a unique sliding fly screen system with integrated security grill.

BALCONY DOORS

Balcony door are designed to provide more glass area due to slim sight line. They can be designed to open in/out with one operating handle and invisible hinges. A single sash can be 4' in width and 8' in height weighing upto 100 kgs with 36 mm glazing.

BAY WINDOWS

Bay windows are typically a series of three windows, installed at an angle that add an architectural dimension by projecting themselves outwards on the elevation, forming a bay in a room, either square or polygonal.

ARCH WINDOWS

Arched windows can turn an attractive outer house design into something truly beautiful. An arched window is created as either a stand-alone window or incorporated into the door design as a part of the door screen, as an overhead fanlight.

TILT & SLIDE DOORS

Tilt & Slide doors are a space saving solution that can be opened fully by sliding or tilted inwards for efficient ventilation. These doors have double compression seal for effective sound insulation. A single door can be 19' wide and 9' high, weighing upto 160 kg per sash with 36 mm glazing.
